

AUE's Tuition Promise

AUE leadership understand and preserve the families' needs of predictability and assurance to be able to plan financially for a college education. One of the most important decisions students and families will ever make is choosing a college or university. It is our duty and pledges to provide the highest return on families' educational investment. The American University of Europe's Tuition Promise will offer all new registered undergraduate students and their families the confidence that Tuition, accommodation, and Course Fees will be frozen over the three years needed to accomplish the undergraduate studies. By keeping tuition and fees constant, AUE establishes the stability students and families need to plan financially for a University education. Fixed costs also safeguard that a student's renewable scholarships and financial aid will retain their value over the entire study period. Throughout this promise, we take the first step toward creating an accessible, steadfast premium, transformative tertiary education.

Tuition Fees

Degree	Cost of credit	Average completion time
Undergraduate Studies	240\$ per credit*	3 years
Graduate Studies	350\$ per credit**	2 years
Doctoral Studies	8000\$ per year	3-5 years
